

MAIDAH RANA

House NO 30 Cant Karachi| 03358456981 | ranamaidah85@gmail.com

Objective

- I do not have professional experience in event management yet, but I am highly motivated to learn and grow in this field. I want to gain hands-on experience, build strong skills, and contribute effectively to event planning and management through dedication, creativity, and continuous improvement.

Education

Bachelor of Science in Software Engineering | 2025 – Ongoing | Jinnah University for Women (JUW)

- Major: Software Engineering
- Related Coursework: Programming Fundamentals, OOP, Web Engineering, UI/UX Design, Database Systems, Data Structures

Intermediate (Pre-Engineering) | Completed | PAF College

- Related Coursework: Mathematics, Computer Science, Physics

Skills & Abilities

MANAGEMENT

- Developed multiple management systems (event, library, restaurant, gaming zone) with strong focus on workflow handling, data operations, and UI efficiency.
- Comfortable leading project flow, organizing tasks, and deploying structured solutions.

Technical Skills

Languages: Python, Java, HTML, CSS and Bootstrap

Frameworks / Libraries: Bootstrap, Tkinter and Swings

Tools: Figma, Git, VS Code, IntelliJ IDEA, VSCode and Jupyter Notebook

Concepts: OOP, UI/UX, System Design, Responsive Web Development

COMMUNICATION

- Delivered academic and project presentations with clarity and confidence.
- Collaborated effectively in group projects and team-based development tasks.

LEADERSHIP

- Led development across multiple academic projects from planning to final deployment.
- Managed design direction and system structure for various software applications.

Projects

Restaurant Management System (Java)

- Created a Java-based restaurant manager for menu handling, billing, and order processing.
- Used object-oriented practices for modular design.

Gaming Zone System (Java)

- Developed a mini-gaming-zone management tool with user tracking and activity logging.
- Ensured smooth user workflows and efficient data storage.

UI/UX Designs (Figma)

- Designed **Neon Travels** — travel-themed modern UI with neon aesthetic.
- Designed **Coffee Hub** — warm, minimalistic coffee brand interface.

Web Development Projects

Coffee Corner Website — HTML, CSS, JavaScript, Bootstrap

- Built a fully responsive coffee-themed website (repeated versions with improved UI).
- Added animations, navigation bars, product cards, and interactive components.

Plant Website

- Designed and developed a clean, nature-themed plant store / informational site.

Portfolio Website

- Developed a personal portfolio site showcasing skills, projects, and contact details.
- Included modern animations, cards, and responsive layout.
